TRANSPARENCY & COMMUNITY

Chonker Inu is ownerless, fully decentralized and supported by its community of enthusiasts.

TRUST

In the cryptocurrency market, Trust is paramount. That means full transparency not only in the community support and development, but also in any security effort. Examples include top-grade audits of \$CHONKY's code

LONGEVITY

Chonker Inu is in it for the long haul. The decentralized community is fostering long-term development of the ecosystem which will result in real use cases for digital art and a popularity beyond any temporary trends.

\$CHONKY Token

\$CHONKY is an BEP20 token which was born on the BSC blockchain June 05, 2023.

The max supply is 420 million and one of its key functionalities is its deflationary Burn 🔥 mechanism. For every buy & sell transaction a 0.69% \$CHONKY is burned making it more valuable. The more \$CHONKY is actively used, the more will be burned so everyone can profit.

#SAFU

The \$CHONKY Token Smart Contract successfully passed a top-grade security audit to further the community's confidence, in full transparency.

Liquidity Pool (LP) Lock

The liquidity pool tokens have been locked for 420 days, minimizing risks and enhancing the safety of the project.

Contract Renounced

\$CHONKY token's smart contract is renounced.

This means that the token is controlled entirely by its community of holders, and that there is no centralized authority or development team with the power to make changes to the token's code or functionality.
